4.0 Provisions

4.1 Eligibility

On January 1, 2023, the Government of Ontario amended Regulation 746/21 under the Liquor Licence and Control Act, 2019, establishing a new framework for temporary outdoor physical extensions (**Temporary Patios**). These amendments streamlined the process of obtaining a temporary extension to an already existing liquor licence in an effort to support **Temporary Patio** programs that become increasingly popular throughout the Province during the COVID-19 pandemic. These amendments place the onus on municipalities to grant permissions to business **Owners** to establish **Temporary Patios**, or temporarily extend already existing patios for a period of no longer than 8 months in a calendar year.

A business **Owner** may qualify to apply for an approved **Temporary Patio** if they meet the following criteria:

- The applicant must be an **Owner** who operates an **Eating Establishment**.
- The **Eating Establishment** must have a legally registered name/business number with the Province of Ontario.
- The applicant must submit a completed application (**Attachment 1**) to the Town's Licensing Department including the following supporting documentation:
 - A proposed site plan
 - A copy of current liability insurance
 - A copy of existing **AGCO** Liquor Licence (for businesses that serve alcohol)
- The applicant must satisfy all of the requirements specified in the policy and the attached application, and ensure that the **Eating Establishment** complies with all relevant federal, provincial and municipal legislation.
- Permission must be obtained from the **Property Owner** in which the proposed **Temporary Patio** would be located on. For **Temporary Patios** proposed to be installed on **Property** owned by the Town, permission for the installation will be obtained through the application process.
- No outstanding administrative monetary penalties are held by the business

4.2 Temporary Patio Types

The Town of Newmarket has established three primary types of **Temporary Patios** that may be applied for by **Eating Establishments**:

Small Frontage Temporary Patios

These **Temporary Patios** are required to be located in open space, situated against the wall of a building. These patios cannot include umbrellas, fencing, or enclosures, emphasizing an open and unobstructed atmosphere. Notably, alcohol is not permitted on the patios as there are no physical barriers separating the area of service from the rest of the walkway.

To preserve the public space, all tables, chairs, and displays must be removed after business hours. Proposals for small frontage **Temporary Patios** are required to maintain a minimum of 1.5m of unobstructed sidewalk space.

Small Frontage patios enjoy the added benefit of being exempt from Town **Property** leasing fees. Instead, they are solely subject to the Town's **Outdoor Serving Area Licence** fee.

Curbside/Walkway Patios

Curbside/Walkway Patios are located on a sidewalk/walkway adjacent to an **Eating Establishment**. Patios are required to be adjacent to an establishment and not extending to neighboring properties unless letters of consent are submitted.

These patios must adhere to stringent guidelines to ensure public safety and

accessibility including:

- An unobstructed emergency route in compliance with the Ontario Building Code and Fire Code must be maintained
- Patios must maintain a minimum setback of 5m from designated pedestrian crossovers, and proper sightlines for pedestrians and drivers
- Shall not impede transit stops or curbside garbage collection
- Sidewalk width of 1.5m must be maintained at 1.5m
- Sturdy barriers of 1m in height are required to separate any part of the **Temporary Patio** that is adjacent to live traffic.

It is expected that proposed site plans indicate all objects, if any, situated between the building and patio to ensure unobstructed and accessible walkways. Curbside/Walkway Patios are subject to a general Town **Property Lease Fee**, as outlined in the Town's Fees and Charges By-law, along with an **Outdoor Serving Area Licence** fee.

Parking Space Patios

Parking Space Patios present a unique opportunity for businesses to enhance their presence in public spaces. Eligible for design, these patios utilize existing parking spaces, contributing to the dynamic streetscape. The designated street must have posted speeds of 40km/hr or less, ensuring a safe environment for patrons. Placement is crucial, requiring the patio to be adjacent to the establishment and not extending to neighboring properties unless letters of consent are submitted.

These **Temporary Patios** must also adhere to stringent guidelines to ensure public safety and accessibility including:

- An unobstructed emergency route in compliance with the Ontario Building Code and Fire Code must be maintained
- Patios must maintain a minimum setback of 5m from designated pedestrian crossovers, and proper sightlines for pedestrians and drivers.
- Patios shall not impede transit stops or curbside garbage collection
- Sidewalk width of 1.5m must be maintained

- Sturdy barriers of 1m in height are required to separate any part of the **Temporary Patio** that is adjacent to live traffic.
- A restaurant owner shall not be approved for a Parking Space Patio if they are also applying for a curbside/walkway patio.

The Town recognizes that temporary Parking Space Patios on public **Property**, especially within the **Business Improvement Area**, utilize a very valuable resource – parking spaces. As a result, applicants considering Parking Space Patios should be aware of the following conditions imposed on these types of Patios:

- 1) Temporary Parking Space Patios are required to be in operation a minimum of 40 hours a week (weather dependant)
- 2) These patios are subject to a higher **Lease Fee** than Curb Side/Walkway Patios as outlined in the Town’s Fees and Charges By-law
- 3) As a result of Council direction, and in an effort to maintain appropriate parking within the **Business Improvement Area**, Town Staff are limited to approving only 6 Patios that require the use of on street parking. Should more than 6 applications be received for Parking Space Patios within the **Business Improvement Area** in any given year, the **Manager** will utilize the following considerations in determining which applications will be successful, in the following order:
 - a. Patios that were previously approved and operated in compliance with Town Policy and By-laws will be given the first right of refusal
 - b. Applicants without any preexisting Outdoor Serving Areas or suitable alternative **Temporary Patio** location will be provided preference
 - c. Failing the above conditions resolving who the successful applicant will be, completed applications received first will be prioritized

Staff will make the best effort to ensure all applicants are able to benefit from the **Temporary Patio** Program while also ensuring parking is maintained to support all businesses within the **Business Improvement Area**.
