Budget Impact

The payments and interest earned in 2022 in lieu of the conveyance of land for park purposes improved cash flow but did not directly benefit the capital budget.

On November 28, 2022, Bill 23 amended the Planning Act by establishing the maximum amount of land required to be conveyed for development or redevelopment to lower the construction cost of affordable housing. Where alternative rates are used for parkland dedication, the amendment.

- a) Establishes the maximum alternative rate for parkland dedication to one hectare for each 600 net residential units proposed or at such lesser rate as may be determined by the municipality for the conveyance of land at one hectare per one thousand units for cash-in-lieu; and
- b) Cap the alternative dedication rate at 1) where land proposed for development or redevelopment is 5 hectares or less in area, 10% of the land or value of the land and 2) where land proposed for development or redevelopment is greater than 5 hectares in area, 15% of the land or value of the land.
